The University Mace and Batons

The mace and batons are symbols of the authority and history of the University and are made from balusters from the original main staircase of Old Main, erected in 1875, the oldest University building now standing. The batons are carried by members of the faculty who are serving as marshals.

Marshals' Gowns

The gowns worn by the marshals are of the traditional University color, cardinal red.

Honor Stoles

White or cardinal stoles denote students who are candidates for University Honors. Cardinal represents Honors (*cum laude*) and white represents High Honors (*magna cum laude*). White stoles with cardinal and white cords represent Highest Honors (*summa cum laude*).

Academic Regalia

The styles of gowns differentiate degree level. Trim of doctoral gowns indicates nature of degree (black or royal blue — Ph.D.; light blue — Ed.D.). Certain members of the faculty wear distinctive gowns and hoods authorized by their doctoral institutions. The lining of the hood denotes the color(s) of the institution awarding the degree. The official colors of the University of Arkansas are cardinal and white.

The color of the velvet band around the hood designates the academic degree of the wearer. Some examples are listed below:

Agriculture	Maize	Medicine	Green
Architecture	Blue Violet	Music	Pink
Arts and Letters	White	Nursing	Apricot
Business and Bus. Admin.	Drab	Pharmacy	Solid Green
Economics	Copper	Philosophy	Royal Blue
Education	Light Blue	Physical Education	Sage Green
Engineering	Orange	Public Administration	Peacock Blue
Fine Arts	Dark Brown	Public Health	Salmon Pink
Forestry	Russett	Science	Gold
Human Environmental Sciences	Maroon	Social Science	Cream
Humanities	Crimson	Social Work	Citron
Journalism	Crimson	Speech	Silvery Gray
Law	Purple	Theology	Scarlet
Library Science	Lemon Yellow	Veterinary Science	Gray

The University Song

In 1909 a prize of fifty dollars was offered for the best poem relating to the University of Arkansas that should be capable of being set to music and used as a college song. Out of many entries, that of Mr. Brodie Payne, 1906, of Hot Springs won the prize. The words were set to music by Professor H. D. Tovey, Director of the Conservatory of Music and Art at the University.

Alma Mater

Pure as the dawn on the brow of thy beauty
Watches thy soul from the mountains of God
Over the Fates of thy children departed
Far from the land where their footsteps have trod.
Beacon of Hope in the ways dreary lighted;
Pride of our hearts that are loyal and true;
From those who adore unto one who adores us—
Mother of Mothers, we sing unto you.

We, with our faces turned high to the Eastward
Proud of our place in the vanguard of Truth,
Will sing unto thee a new song of thanksgiving—
Honor to God and the Springtime of Youth.
Shout for the victory or tear for the vanquished;
Sunshine or tempest thy heart is e'er true;
Pride of the hills and the white-laden Lowlands—
Mother of Mothers, we kneel unto you.

Ever the Legions of Sin will assail us,
Even the Battle in Cities afar;
Still in the depth will thy Spirit eternal
Beckon us on like a piloting Star.
Down the dim years do thy dead children call thee,
Wafted to sleep while the Springtime was new;
We, of the Present, thy Hope of the Future—
Mother of Mothers, we pray unto you.

The University Seal

The Seal of the University of Arkansas is affixed to each diploma and is stamped in gold on each diploma cover. The central element in the Seal is the front entrance to Old Main, the oldest building on campus.

HONORARY DEGREE RECIPIENT

DON TYSON

Honorary Degree of Humane Letters, L.H.D.

Don Tyson got hands-on experience in the poultry industry at a young age: by 14 he was running a chicken catching crew and driving a truck for his father's business, Tyson's Feed and Hatchery, in Springdale. When he was 22 he left his studies at the University of Arkansas to become head of operations for the business, and over the next 14 years he pushed to achieve complete vertical integration of the company, from egg to processed chicken to distribution. He and his father

pursued an aggressive acquisition policy to keep the business growing and took the company public in 1963. Tyson was named company president in 1966. He was a strong proponent of the marketing strategy he described as "segment, concentrate and dominate," and was among the first in the poultry industry to recognize the importance of "branding." He wanted his customers to know they weren't just buying chicken: they were buying "Tyson's Country Fresh Chicken."

Tyson became chief executive officer and chairman of the board of Tyson Foods, Inc. in 1967. He continued making new acquisitions, diversifying the business by adding beef and pork to the company's products, building this Springdale business into an international force. Under his leadership Tyson Foods has become a Fortune 100 company and the world's largest meat producer. He continues to serve on the company's board of directors.

Tyson's business success earned him international recognition and he shared that success with the same enthusiasm that he has lived his life. He is a regular contributor to a wide range of nonprofit agencies in Springdale, northwest Arkansas and the state. He encouraged his company's partnerships with Feeding America and Share Our Strength, resulting in donations of more than 70 million pounds of chicken, beef and pork to food banks and pantries across the country. His donations to the University of Arkansas personally, as well as through the Tyson Family Foundation and Tyson Foods, Inc., have helped preserve the University of Arkansas Press, established endowed professorships and scholarships, helped rebuild the Sigma Nu fraternity house, supported the Center of Excellence for Poultry Science and enabled construction of the John W. Tyson Building that houses the center. He served on the steering committee for the university's Campaign for the Twenty-First Century and as the campaign was winding down Tyson gifts totaling \$20.1 million pushed the total amount raised in the campaign past the goal of \$1 billion.

HONORARY DEGREE RECIPIENT

ISAAC J. CRUMBLY

Honorary Degree of Doctorate of Science, Sc.D.

Isaac "Ike" Crumbly, a native of Widener, Arkansas, was a biology professor at Georgia's Fort Valley State University in 1983 when he decided to take on a challenge: the U.S. Department of Energy wanted to fund new education programs to increase the number of women and minorities working in the energy industry.

Crumbly responded with a vision, creating the Cooperative Developmental Energy Program at his historically black land grant university. He started at square one. Using Energy Department funding, he organized a seminar and persuaded representatives from nearby companies to teach students about the energy industry. The seminar built connections that Crumbly used to organize an internship-recruiting event. The students recruited as interns performed well, and the next year the Energy Department money was gone, but recruiters came back.

Crumbly's next challenge was sustaining this program at a university that didn't offer degrees in engineering, geology, geophysics or health physics. His solution was to develop dual degree programs with universities that offered these degrees. The University of Arkansas is the most recent institution to join with Fort Valley State to offer a dual degree.

The next step was to create an early-outreach program to identify and recruit young women and minority students, starting in the eighth grade. Crumbly's summer program built their math and science skills, to prepare them for college, while teaching them about the energy industry. The Math, Science and Engineering Academy at Fort Valley State has become a model for other schools, including the University of Texas.

Since 1983, the Cooperative Development Energy Program has placed some 850 student interns into the energy industry and the program boasts 70 engineers, 24 geoscientists and four health physicists among its graduates, working for major energy companies and government agencies. Crumbly is credited with bringing in more than \$28 million in grants, scholarships and internships from both public and private sources.

For his innovative work Crumbly has received numerous awards, including a letter of commendation from President Ronald Reagan for exemplary achievements as an educator, researcher and role model and the National Society of Black Engineers' "Golden Torch Award" for Lifetime Achievement in Academia.

Crumbly has a Bachelor of Science degree in horticulture from Arkansas A.M. & N. College, now the University of Arkansas at Pine Bluff; a Master of Science degree in horticulture from the University of Illinois; and a doctoral degree in botany from North Dakota State University.
